Kiwi

Use the chart for the bigger sizes models if the size is out of this scale.

- Measure the length of the bare foot by placing the heel and the longest toe along the dotted line in bold. The size is shown in the color where the longest toe ends.
- Measure the width of the bare foot at the widest part at the toe base. The width should be in the same color as the color of measured size.
- Cut the tape along the dotted line to measure the circumference around the widest part of the toes base.. The circumference of the foot should be less than the length of the tape.

This foot is Zeazoo  
**16/17**  
size

width • circumference

Place the heel against the box/book here.
