How to choose the right size

1

size

Use the chart for the bigger sizes models if the size is out of this scale

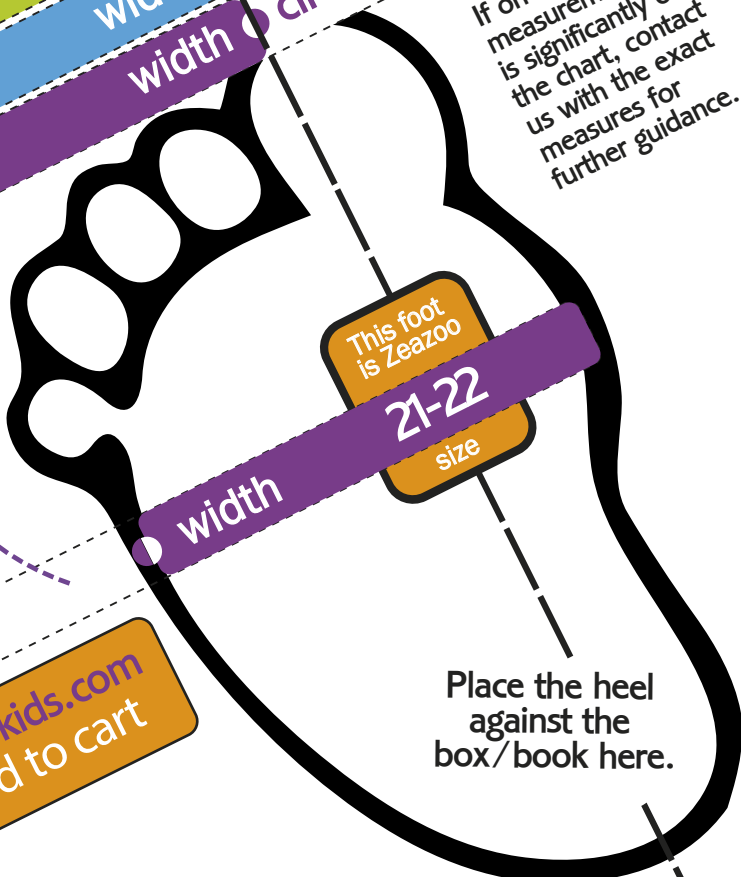

39	width	circumference
38	width	circumference
37	width	circumference
36	width	circumference
35	width	circumference
34	width	circumference
33	width	circumference
32	width	circumference
31	width	circumference
30-31	width	circumference
29	width	circumference
27-28	width	circumference
26	width	circumference
24-25	width	circumference
23	width	circumference
21-22	width	circumference

2 Measure the length of the bare foot by placing the heel and the longest toe along the dotted line where the longest toe ends.

3 Measure the width* of the bare foot at the widest part at the toe base. The width should be in the same color as the color of measured size.

4 Cut the tape along the dotted line to measure the circumference around the widest part of the toes base. The circumference of the foot should be less than the length of the tape.

If one of the measurements off is significantly off the chart, contact us with the exact measures for further guidance.

Place the heel against the box/book here.

Place a box or a book here.
