How to choose the right size

Measure this line to check that this page is the right scale. This line should measure 5cm for chart to be correct.

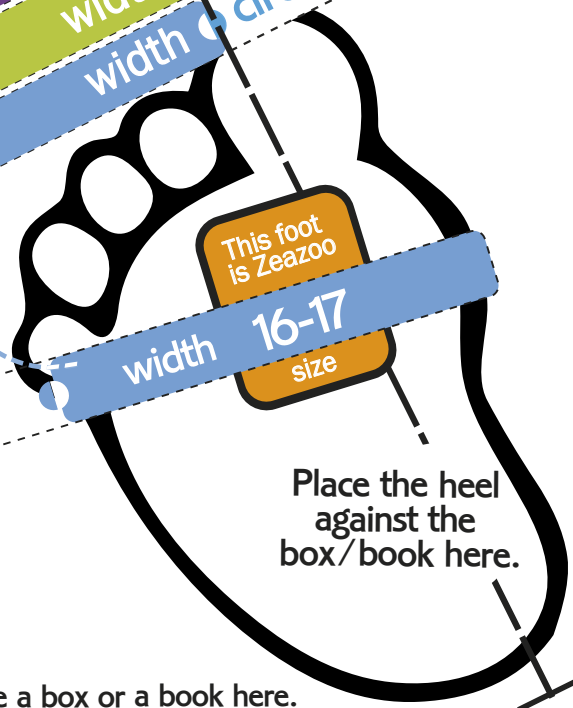

If one of the measurements is significantly off the chart, contact us with the exact measures for further guidance.

size	width	circumference
39	width	circumference
38	width	circumference
37	width	circumference
36	width	circumference
35	width	circumference
34	width	circumference
33	width	circumference
32	width	circumference
31	width	circumference
30	width	circumference
28-29	width	circumference
27	width	circumference
25-26	width	circumference
24	width	circumference
22-23	width	circumference
21	width	circumference
19-20	width	circumference
18	width	circumference
16-17	width	circumference

2 Measure the length of the bare foot by placing the heel and the longest toe along the dotted line where the longest toe ends.

3 Measure the width* of the bare foot at the widest part of the toe base. The width should be in the same color as the color of measured size.

4 Cut the tape along the dotted line to measure the circumference around the widest part of the toes base. The circumference of the foot should be less than the length of the tape.

This foot is Zeazoo size 16-17

Place the heel against the box/book here.
