How to choose the right size

Use the chart for the bigger sizes models if the size is out of this scale

This foot is Zeazoo
25/26
size

width ● **circumference**

- 1** Measure this line to check that this page is the right scale. This line should measure 5cm for chart to be correct.
- 2** Measure the length of the bare foot by placing the heel and the longest toe along the dotted line in bold. The size is shown in the color where the longest toe ends.
- 3** Measure the width* of the bare foot at the widest part at the toe base. The width should be in the same color as the color of measured size.
- 4** Cut the tape along the dotted line to measure the circumference around the widest part of the toes base. The circumference of the foot should be less than the length of the tape.
